TEQIP III, NIT Meghalaya

TEQIP III

Venue
National Institute of Technology Meghalaya,
Laitumkhrah, Shillong, -793003.

Short Term Course Objective

This online short term course is designed to address recent advancements in the area of smart electric grid technologies related to Integration of renewable energy sources, control techniques and protection technologies for smart grids, big-data analytics. The course will offer a unique platform to the researchers, practicing engineers, academicians and research scholars working in the relevant areas to come closer through theoretical sessions and practical sessions. This event is structured to give a wide exposure on recent advancements in smart electric grid technologies.

About NIT Meghalaya

National Institute of Technology Meghalaya was established in the year 2010 as joint venture of Govt. of India and Govt. of Meghalaya with granted permanent campus of around 450 acres at Shora Cherrapunjee. The institute is functioning in its temporary campus at Shillong in East Khasi Hills district of Meghalaya and is about 2 kms from the main bus stand of Shillong on Police bazaar – Laitumkhrach road. The city of Shillong is well connected with rest of country by road. The nearest railway station is at Guwahati (Assam), at a distance of 90 Kms from Shillong. The nearest airport is within city (15 kms). The place has healthy climate with temperature ranging from 07°C to 16°C during December and is at an altitude of 1520 meters.

The Department of Electrical Engineering was established in the year 2010. The Department offers B.Tech, M.Tech and Ph.D programmes. The department is well equipped with laboratories, computers, latest simulation softwares and our students are exposed to recent technologies and techniques. The department has well experienced and dedicated faculty members with different specializations.

Program Contents

- ❖ Integration of renewable energy sources e.g. solar, wind, etc.,
- ❖ Control techniques for grid connected PV systems
- ❖ Energy management in an off-grid inverter
- ❖ Introduction to Electric Vehicle and its power converter requirements
- ❖ Power System Operation & Management in context to Indian grids
- ❖ Big data analytics & Cloud Computing
- ❖ Data Markets for Smart Grid
