Workshop on Creation and Promotion of Online Teaching Resources: A National Initiative

Date: 5th June, 2017

Time: 9:30 AM

Venue:

*National Institute of Technology Meghalaya
Bijni Complex, Laitumkhrah
Shillong -793003, Meghalaya, India*

About the Workshop

As an initiative funded by MHRD, Government of India, the NPTEL program has been very successful in creating a rich database of quality course materials over the years. These course materials are available for free to all interested individuals. Recently, MOOC certification courses have started under the NPTEL initiative where interested individuals (students, faculty members, and working professionals) can enroll for one or more courses that are on offer, and can take the journey with the expert(s) from IITs and other reputed institutes through online video lectures, tutorials, assignments and examinations. The primary aim of the workshop is to spread awareness of this type of online courseware that can immensely benefit not only students, but also faculty members and working professionals. **Registration to the workshop is free.**

The local chapter has a significant role to play in the future to sustain this awareness campaign in this region of the country, and also join the initiative in creating new contents.

Who should attend?

Students and academicians from engineering colleges, general degree colleges and universities who are interested to learn about alternate sources of quality knowledge will benefit from the workshop. Working professionals from industry and other organizations who are interested to augment and update their knowledge are also encouraged to attend. Certificates will be provided to all the participants.

Speaker:

Mr. Shib Sankar Das

Network Engineer

Centre for Education Technology

Indian Institute of Technology Kharagpur

Registration Details
